

Letter -- SOS efforts appreciated

Gulf Islands Driftwood Published: **February 16, 2011 10:00 AM**

This is a letter of appreciation directed to Phyllis Bolton and the Save Our Surgery Committee.

For more than two years they have volunteered their time and energy on behalf of Gulf Islanders to try to communicate with VIHA about our hospital and our needs. SOS got little response to phone calls, letters, emails plus requests for meetings. SOS talked to our MLA, held meetings, prodded us all to write letters, sign petitions and protest.

Finally, positive things are beginning to happen, in addition to better communication between all concerned parties.

MARG SIMONS,

Fulford
